A QSSI Company

1800K CCT LED Luminaires

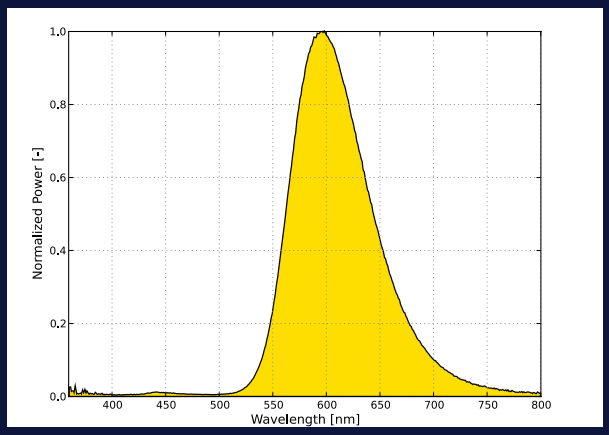
1882 Lighting offers 1800K CCT LEDs. 1800K CCT LED fixtures are excellent for outdoor lighting applications: area and site lighting for streets and highways, decorative post tops to illuminate walkways, bollards for pathways and more.

Applications

- Alternative to obsolete LPS or HPS lighting with 90+ Lumens watt for equal performance.
- Dark Sky applications for City Center and Suburban zones that allow higher light levels
- Lighting near observatories for better star viewing

Spectral Chart

1800K CCT LEDs provide the same visual light output as traditional Low Pressure Sodium systems, but provide substantially reduced energy and maintenance costs, and increased lifespan and lumen maintenance values.



1800K CCT LEDs:
Dominant Wavelength 588.8-592.6
Low Pressure Sodium Wavelength: 589 and 589.6
